## The President's Message from Carol Clifton

Hi Everyone,

It seems like time is going by way too fast. The holidays will be here soon – and I'm not ready for Halloween yet - much less Christmas.

For next year I need a few programs for Indianhead meetings. So if you know of anyone who would like to give a program or if you would like to give one yourself, let me know. Any subject is welcome, digital or non-digital.

Last month we had a nice meeting in Wisconsin Rapids, thanks to Bill & Connie Nieman. The meal was delicious and the program by Shawn Hinke was great. The next meeting will be in Wausau hosted by Kirk & Helen Kolpитеke. Rick Trummer will be the program – so it should be interesting.

## On The Flip Side of Hollywood

In contrast to the ideals, opinions and feelings of today's "Hollywonk" the real actors of yester-year loved the United States. They had both class and integrity. With the advent of World War many of our actors went to fight rather than stand and rant against this country we all love. They gave up their wealth, position and fame to become service men & women, many as simple "enlisted men". This page lists but a few, but from this group of only 18 men came over 70 medals in honor of their valor, spanning from Bronze Stars, Silver Stars, Distinguish Service Cross', Purple Hearts and one Congressional Medal of Honor. So remember; while the "Entertainers of 2003" have been in all of the news media lately (for it seems News Paper, Television and Radio has been more than ready to put them and their anti-American, anti-Bush message before the public) I would like to remind the people of what the entertainers of 1943 were doing, (60 years ago). Most of these brave men have since passed on.

Hollywonk! Real Hollywood Heros

**Alec Guinness** (Star Wars) operated a British Royal Navy landing craft on D-Day.

**James Doohan** ("Scotty" on Star Trek) landed in Normandy with the U. S. Army on D-Day.

**Donald Pleasance** (The Great Escape) really was an R. A. F. pilot who was shot down, held prisoner and tortured by the Germans.

**David Niven** was a Sandhurst graduate and Lt. Colonel of the British Commandos in Normandy.

**James Stewart** Entered the Army Air Force as a private and worked his way to the rank of Colonel. During World War II, Stewart served as a bomber pilot, his service record crediting him with leading more than 20 missions over Germany, and taking part in hundreds of air strikes during his tour of duty. Stewart earned the Air Medal, the Distinguished Flying Cross, France's Croix de Guerre, and 7 Battle Stars during World War II. In peace time, Stewart continued to be an active member of the AirForce as a reservist, reaching the rank of Brigadier General before retiring in the late 1950s.

**Clark Gable** (Mega-Movie Star when war broke out) Although he was beyond the draft age at the time the U.S. entered WW II, Clark Gable enlisted as a private in the AAF on Aug. 12, 1942 at Los Angeles. He attended the Officers' Candidate School at Miami Beach, Fla. and graduated as a second lieutenant on Oct. 28, 1942. He then attended aerial gunnery school and in Feb. 1943 he was as-

**Charles Bronson** was a tail gunner in the Army Air Corps, more specifically on B-29s in the 20th Air Force out of Guam, Tinian, and Saipan

**George C. Scott** was a decorated U. S. Marine.

**Eddie Albert** (Green Acres TV) was awarded a Bronze Star for his heroic action as a U. S. Naval officer aiding Marines at the horrific battle on the island of Tarawa in the Pacific Nov. 1943.

**Brian Keith** served as a U.S. Marine rear gunner in several actions against the Japanese on Rabal in the Pacific.

**Lee Marvin** was a U.S. Marine on Saipan during the Marianas campaign when he was wounded

## *Monday with Rick Trummer*

### **Digital: Getting into the Loop**

A new age has begun and “digital imaging” are now everyday words. Is it the right time to make the transfer from film to digital? What happens when we make the transfer? What kind of camera is best for the studio? Why the heck did I get into photography anyway? This program is designed to answer those questions plus a lot more as Rick will discuss areas of digital theory from the very basic to the very advanced, from implication and basic concepts to dealing with color management, storage, and calibration, he might even throw in a little photoshop. So strap on your seatbelts, get the engine turned over and hang on for your life as you enter into the new age and freedom of digital imagery.

**Rick Trummer, M.Photog., Cr.CPP, F-WPPA, F-SCPA** has been working with the digital platform for the last four years. He has been on the cutting edge of the commercial industry for over fifteen years and has defined his shooting style on some of the biggest magazine covers in the U.S. and Canada. Although trained in the commercial industry, Rick trained and worked with one of the premier portrait shooters in the Midwest, Lee Larsen. He has given seminars and programs in 20 States and has assisted hundreds with the ideals and business ethics of the commercial industry. In his twenty year career he has been honored with prestigious “Kodak Gallery Awards” and eight “Fuji Masterpiece Awards”, numerous “Best of Show” and “Court of Honors” and received the SPCA “Outstanding Achievement Award” eight times. To date, he has been awarded over 250 blue ribbons in print competition from the SPCA, WPPA and PPA. He continues to teach and share his knowledge with his peers and the photographers of the next generation.

**John Russell:** In 1942, he enlisted in the Marine Corps where he received a battlefield commission and was wounded and highly decorated for valor at Guadalcanal.

So how do you feel the real heroes of the silver screen acted when compared to the hollywonks today who spray out anti-American drivel as they bite the hand that feeds them? Can you imagine these stars of yester-year saying they hate our flag, making anti-war speeches, marching in anti-American parades and saying they hate our president?
